

EMMANUEL CHURCH

Estimate value 1million

As Project Manager for commercial projects with Certified Benchmark, including Emmanuel Church of God in Christ, I was responsible for creating and maintaining the progress of a steel structure church from the site preparation forward. Safety, technical awareness, and code compliance was always the driving force for me behind the project. I was responsible for managing subcontractors, as well as the job superintendent, and estimator. I was able to use my education as well as my skills to add hands-on direction to the project. Unfortunately, the contractor passed away before the project was complete, and his family chose to try to complete this project without the team originally hired for this project.

TOLLBROTHERS

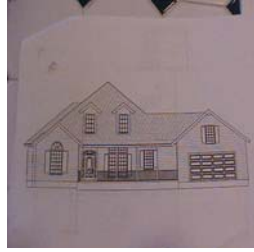

Palm Coast
Tuscany Ridge
Palencia
Nocatee

As a Construction Manager for award-winning national luxury homebuilder, Toll Brothers, I was responsible for supervising all on-site construction and land development, including scheduling subcontractors, resolving day-to-day problems on the job site, and inspecting all work during construction to ensure compliance with plans, specifications and relevant building codes. I was proud to be chosen to manage the construction of the new models in Nocatee. I was also the go-to person chosen to resolve customer issues that would arise during and immediately following the building process.

SITTON RESIDENTS

Estimated value 950K

I continue to be amazed when I remember the day we purchased our 2-1/2 acres of undeveloped and wondered how that could possibly turn into our home. I watched in awe as Mark cleared the land, but still wondered where the house would eventually sit. The day the lumber was delivered, I continued to question how all of that wood was going to turn into a house; yet when I left the site and returned the next day, walls were up and the dream was becoming reality. This entire house was built by one person, with a little help from friends and family, but the driving, hands-on force was one man.

Dr. Rick & Liliane Bruns
Estimated Value 3.5million

This letter is written to provide a recommendation for Mark Sitton, Inc. I have had the pleasure of working with Mark on several projects in Ponte Vedra, and I have worked closely with him on these projects. I was always kept up to date on the project's progress and Mark made himself accessible for job-site meetings, which was greatly appreciated, considering the size and complex phases of my projects.

The expertise and services provided by Mark have been first-rate and I would not hesitate to contract with Mark again for future construction projects. I look forward to continuing my relationship with Mark Sitton, Inc. and would highly recommend this company for any construction projects you may be considering.

Sincerely,

*Rick & Lilian Bruns, D.C.

HABIJAX
Estimated Value priceless

I can sum up my Habijax experience best by describing it as a bunch of high-spirited people happy to be helping others. Building the houses allowed me to give of myself and at the same time giving happiness and hope to local families. The idea of getting personally involved in bringing about such drastic change in an area of our community that was so depressed was priceless. The challenge of scheduling, organizing, and building a house in 7 days is exhilarating. A bonus to the project was that it came in under budget.

Kitchen Remodel with Granite & Tile

April 15, 2009

Re: Mark Sitton

To whom it may concern:

This letter is to recommend Mark Sitton for any remodeling and/or other work involving construction.

Mr. Sitton recently remodeled my kitchen which involved gutting the old kitchen and completely redoing it.

I was thoroughly pleased with his work. He was extremely attentive to every detail. He was helpful in the design/plan which involved taking accurate measurements, picking out fixtures, going with us to various vendors to choose such items as sink and countertop. He worked with us in a very pleasant and helpful manner.

He worked diligently from the beginning to the end of the project.

He was punctual, arriving when he said he would, and worked efficiently throughout each day.

Mr Sitton was dedicated to the job from start to finish. Never a problem with him showing up and he did a full days work every day.

After the project was completed, he did a thorough clean-up job.

Mr Sitton is a very trustworthy person. He was given a key to my house so he could enter or lock up if I was not at home.

He gave us an accurate estimate; there were no additional charges except for extra work I asked him to do.

Most importantly, his workmanship was outstanding.

All fixtures fit perfectly, and were put in place without any damage.

He did a magnificent job and my wife and I are totally satisfied.

Our kitchen is now the favorite room in our house.

Any future work on my house will be done by Mr. Sitton.

Sincerely,

Dr.Allan Perlman
